

Service Centers

Equip Your Service Department and Maximize Your Battery Sales

Toyota Battery Tester Platform is here for you!

Did you know that 70% of customers will replace a battery when told it needs replacing and 86% of customers say a free battery test is important in choosing a repair outlet? The New Generation Battery Tester Platform provides your dealership full control over your 12V battery management process. Your dealership can select the best tester for your needs, which will help keep consistent processes, drive sales, build customer satisfaction and also provide visibility of the battery tests performed daily.

CPX-900

Battery Analyzer

- Non-warranty 12V battery tester
- Service apps promote quick, error-free testing — ideal for busy shops or inexperienced technicians
- VIN capture via 1D/2D barcode scanner
- Integrated printer
- E-mail test results directly from the tool

Standard Price: \$845.72

Rebate: \$200 savings per unit

Promo Price: \$645.72*

DSS-5000

Handheld Battery Tester

- Required for Battery Warranty
- Detachable controller enables easier scanning and system test
- VIN capture via integrated camera
- Integrated printer
- E-mail test results directly from the tool

Standard Price: \$1,959.06

Limited Time Discount: -\$150

Rebate: \$200 savings per unit

Promo Price: \$1,605.82*

DCA-8000

Diagnostic Charger

- Required for Battery Warranty
- Comprehensive detection diagnostics assess a range of additional battery conditions
- Power Supply Mode (up to 70 amps)
- Wireless barcode scanner included
- Integrated printer
- E-mail test results directly from the tool

Standard Price: \$3,958.90

Limited Time Discount: -\$260

Promo Price: \$3,697.82*

Battery Management Information System (BMIS)

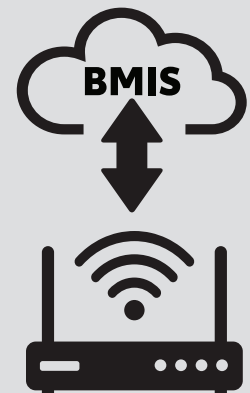

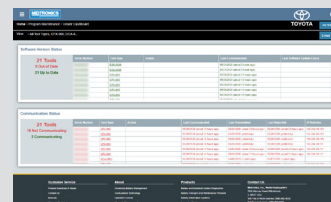

This new data platform allows your dealership to access the most innovative battery-testing tracker, the Battery Management Information System (BMIS). A cloud-based analytics solution designed to support management of battery testing equipment, and provide visibility of battery tests performed daily.

Customer Usage

- Collect battery service records electronically and make them available online
- Keep VIN history of tests performed on previous customer visits (based on VIN)
- Print, email or text results to customers

Service Manager Usage

- Dashboard view to highlight program testing performance and process compliance
- Track equipment usage in the dealership
- Keep equipment updated with latest software updates, updating software over the air
- Reports of testing by date, time, location, day of week and technician

1 in 4 automotive batteries in use will need replacing this year.

Reminder: Starting September 1, 2020, ONLY the 14-digit warranty code from the DSS-5000 and DCA-8000 will be accepted by the TMNA Warranty Department. Don't miss this rebate and discount opportunity!

How the rebates work: Rebates are only valid for Toyota dealers. Toyota Parts Marketing Group will provide the \$200.00 rebate after the product ships to the dealers.

Hurry, rebates and discounts expire August 31, 2020!

*Promo prices shown are after all rebates and/or discounts.

Best Practices

- Test every customer battery during the service visit
- Present the results to the customer (Green/Yellow/Red)
- Sell the Green, let customers know when their battery is in good shape
- Multipoint inspection including battery check

Recommended

- 1 tester per 2 general shop bays
- 1 tester per express bay

Example: 40 bays (10 express)

- 30 bays need 15 testers
- 10 express bays need 10 testers

As battery life may vary by climate, ensure your dealership has the proper mix of warranty & non warranty testers to meet your dealership's needs.

How to Order

Either of these methods can be used to place an order:

SST Website

- Login to TIS
- Select **TIS** from the upper navigation bar
- Click **Diagnostics**
- Click **Tools & Equipment**
- Choose the **Toyota Special Service Tools (SSTs)** link

Or, complete the form below, then click the button to email your completed form.

How the rebate works:

Rebates are only valid for Toyota dealers. Toyota Parts Marketing Group will provide the \$200.00 rebate after the product ships to the dealers.
